

TOP SECRET

DAILY STAFF MEETING

Monday, 30 July 1951

Mr. Reber noted that NIE's 25 and 38 would be discussed at the IAC Meeting today.

25X1 Mr. [] reported that a system was being devised whereby
CIA would send a Weekly Intelligence Summary to our Senior
25X1 Representatives abroad. Mr. [] will deliver his copy to
Colonel Schow, who in turn will show it to Generals Eisenhower
and Gruenther. This led to the discussion as to whether we were
25X1 not in fact competing with the Weekly Summary which is prepared
by G-2 for General Eisenhower. Mr. [] and Mr. [] both
25X1 noted that any intelligence summary produced by CIA might well
be in competition with G-2. However, General Eisenhower has
specifically reported to Mr. Dulles that he had not seen anything
from CIA other than estimates, and did desire to receive pertinent
25X1 information pertaining to his area from CIA. It was noted that
[] is presently sending a brief daily report on operational
25X1 matters. Mr. [] stated that OCI was preparing a dry run
which is to be shown to the DCI for his approval.

25X1 Mr. [] reported that an individual of OPC apparently
had a mental breakdown Saturday afternoon and it was necessary to
25X1 place him temporarily in [] Hospital. He also reported
25X1 that our office Duty Officer system did not appear to be function-
ing, since the CIA Duty Officer was not able to contact the
proper authorities in OPC. (NOTE: CIA Regulations require that
each office notify the CIA Duty Officer where responsible indi-
25X1 viduals may be reached at all times.) Mr. [] also noted that
a plan was being drawn up to handle any future cases of this
nature, which will include action on the part of the Medical
staff, Security and the AD concerned.

25X1 Mr. Reber again raised the question of the Agenda to be
discussed at the AD's meeting. Mr. [] stated that he had
discussed this matter with the D/DCI and would discuss it further
with the DCI.

25X1
